

XTREME ANTIMICROBIAL MULTI-SURFACE CLEANER & DISINFECTANT

PROTECT YOUR BUSINESS, EMPLOYEES & CUSTOMERS

In order for your business to remain open and profitable, protecting your employees and people who enter your business to purchase or utilize your services, is critical for your bottom line today and in the future. We highly recommend that you utilize Xtreme Treatment Compound. Xtreme is a **Non-Toxic, Antimicrobial Multi-Surface Cleaner & Disinfectant** that kills 99.99% of germs, bacteria and inactivates viruses that are spread through the air and through contact with contaminated surfaces.

Xtreme is a highly concentrated solution that is safe to use and replaces toxic and corrosive chemistries which are commonly utilized today. Often these products contain Quats (QACs), peroxides or chlorine, which have negative health side effects and leave behind unhealthy and harmful residues. Xtreme is versatile for multiple applications, including: destruction of odor causing bacteria on both food contact and non-food contact surfaces; removal of mold and mildew from surfaces like wood decks, stairs and concrete patios; algae control in lakes & ponds; control and elimination of micro-organisms, which are proven to be infectious to people and animals, such as canine and human coronaviruses, SARS-CoV-2 and many more. **Purgo is on the “N” list and has been tested on the “actual” COVID-19 virus and is proven to kill (inactivate) same.**

USES

Xtreme’s broad spectrum performance and non-toxic technology makes it perfect for use in both normal and hygiene-critical environments, such as: schools, hospitals, hotels, food manufacturing, retail stores, offices, any industry, restaurants, Churches, Dental, Medical, Chiropractic & PT offices, trucks, vehicles, Veterinary clinics, public transportation, etc.

APPLICATION

- Spray or fog any surface, allow to stay wet for 30 sec. or more (see label), then let air dry, or spray and wipe with a clean cloth. Also use in mop buckets, washing machines, carpet cleaners and power washers.
- Safe to use on any non-porous or porous surface, including: sinks, toilets, shower stalls, windows, mirrors, faucets, countertops, chrome, metal, stainless steel, cloth, vinyl, leather, cloth, plastic wellness barriers, etc.

XTREME BENEFITS

- Non-Toxic - Non-Hazardous - Non-Corrosive - 100% Biodegradable
- Simplifies Overall Cleaning Process | Increases Operational Efficiency | Improves User Experience
- Safe to Use on Non-Porous & Porous Surfaces | Reduce Product Training Time & the Number of Chemicals Purchased
- **Works Fast & Continues to Work for Up to 4 Days**
- Zero Reentry Time (**Immediate Occupancy Post Fogging**) - *No Hazmat Suits Needed!*
- Will not harm or damage expensive sprayers or fogging equipment
- **Saves Time, Money, People & The Planet**
